Email: oncomasters@gmail.com

Dear Colleagues,

It is with great pleasure that we extend a warm welcome to the **11th edition of the Oncosurgery Mastercourse (OM 11.0), focusing on Skull Base Cancer.**

Over the years, the **Oncosurgery Mastercourse** has become a prestigious platform for demonstrating excellence in surgical techniques and optimizing technology through the mutual exchange of expertise.

For **OM 11.0**, we have organized a specialized pre-conference workshop on Cadaveric Prosection to be performed by leading Masters. This workshop will cover three critical modules:

1. Transsphenoid Approach
2. Transcribriform Approach
3. Transpterygoid Approach

This session is designed to provide a detailed understanding of the anatomy of the anterior skull base and the internal carotid artery, offering a valuable opportunity for live interaction with the faculty during and after the prosection.

The main program for **OM 11.0** will feature Masters sharing their extensive experience through:

- Didactic Lectures
- Master Videos
- Panel Discussions

These sessions are specifically structured to enable all participants to **"Fine-tune their surgical skills"** and improve outcomes for challenging procedures in the skull base region. We encourage you to utilize this opportunity to learn from our collective experiences and contribute to advancing surgical standards for better patient care. We eagerly anticipate your active participation in making **OM 11.0** a academic success story

Regards

Parin Patel
Organising Chairman

Cadaveric Prosection Workshop

27th March 2026

Venue - Asmita Bhavan, BJMC, Civil Hospital, Ahmedabad

Who should attend?

ENT Surgeons, Head and Neck Surgeons, Surgical Oncologists,
Neurosurgeons, Consultants and Residents of the above mentioned fraternity.

Rich learnings You can Expect at Workshop

- 1) Meet the Masters (International and National) performing Cadaveric Prosection.
- 2) Unique learning opportunity to gain the detailed knowledge regarding anatomy of anterior skull base and pituitary gland.
- 3) To learn various modules of dissection (Transssphenoid, Transcribriform and Transpterygoid).
- 4) One to one interaction with Masters during Prosection.
- 5) Learn about Neuronavigation during Prosection.

OM 11.0

SKULL BASE CONFERENCE WITH CADAVERIC PROSECTION

28th, 29th March 2026

Venue - HCG-Aastha Cancer Centre, Ahmedabad

Who should attend?

ENT Surgeons, Head and Neck Surgeons, Surgical, Radiation and Medical Oncologists,
Neurosurgeons, Consultants and Residents of the above mentioned fraternity.

Why you should attend OM 11.0?

- 1) Various acclaimed National and international faculties will show case their work on skull base, (ENT, Head and Neck surgeons and Neurosurgeons)
- 2) There will be discussion on Clinical Radiology, Clinical Pathology of a anterior skull base and pituitary tumours
- 3) Interesting and Didactic Lectures and Panels by International and National faculties
- 4) One to one discussion with faculties
- 5) It will be comprehensive conference covering surgical, radiation and chemotherapy aspect of Anterior skull base tumours.
